2023

The first phase of the 40-mu FLOWERY industrial park was officially put into use.

About Us

Wuxi Bakeware Company Ltd. (formerly Wuxi Bakeware Factory) was established in March 2003 and launched its "FLOWERY" brand in the same year. The company specializes in the production & sales of bakeware. The "Flowery" brand is also the organization responsible for drafting the national standard-GB/T 32389-2015: Utensils for baking food.

Located at Yangjian Town, Xishan District, Wuxi City, the factory covers an area of 55,000 square meters. The company currently has 350 employees and more than 10,000 main products, including bakeware, bread pan, pizza pans, cake molds, trolleys, mousse rings and other utensils, a marketing network that spans across the country, with best-selling products welcomed by more than 12,000 clients. Furthermore, the "Flowery" brand also focuses and specializes on the development of overseas markets and has made considerable achievements in this regard after 22 years of consistent efforts. Boasting sophisticated mass production equipment, R&D expertise, advanced production processes and technologies, adhering to the concept of "making quality products" but with consistent progress, "Flowery" is committed to maintain a professional corporate style with enterprising and very cooperative spirits.

The Company pays full respect to the value of our employees and their industrious work ethics. It advocates and promotes highly spirited professionalism. Only by the joint efforts of all our employees and team can we pave the way for a broad and excellent future for the Company by providing every customer with the best products and service.

Brand Culture

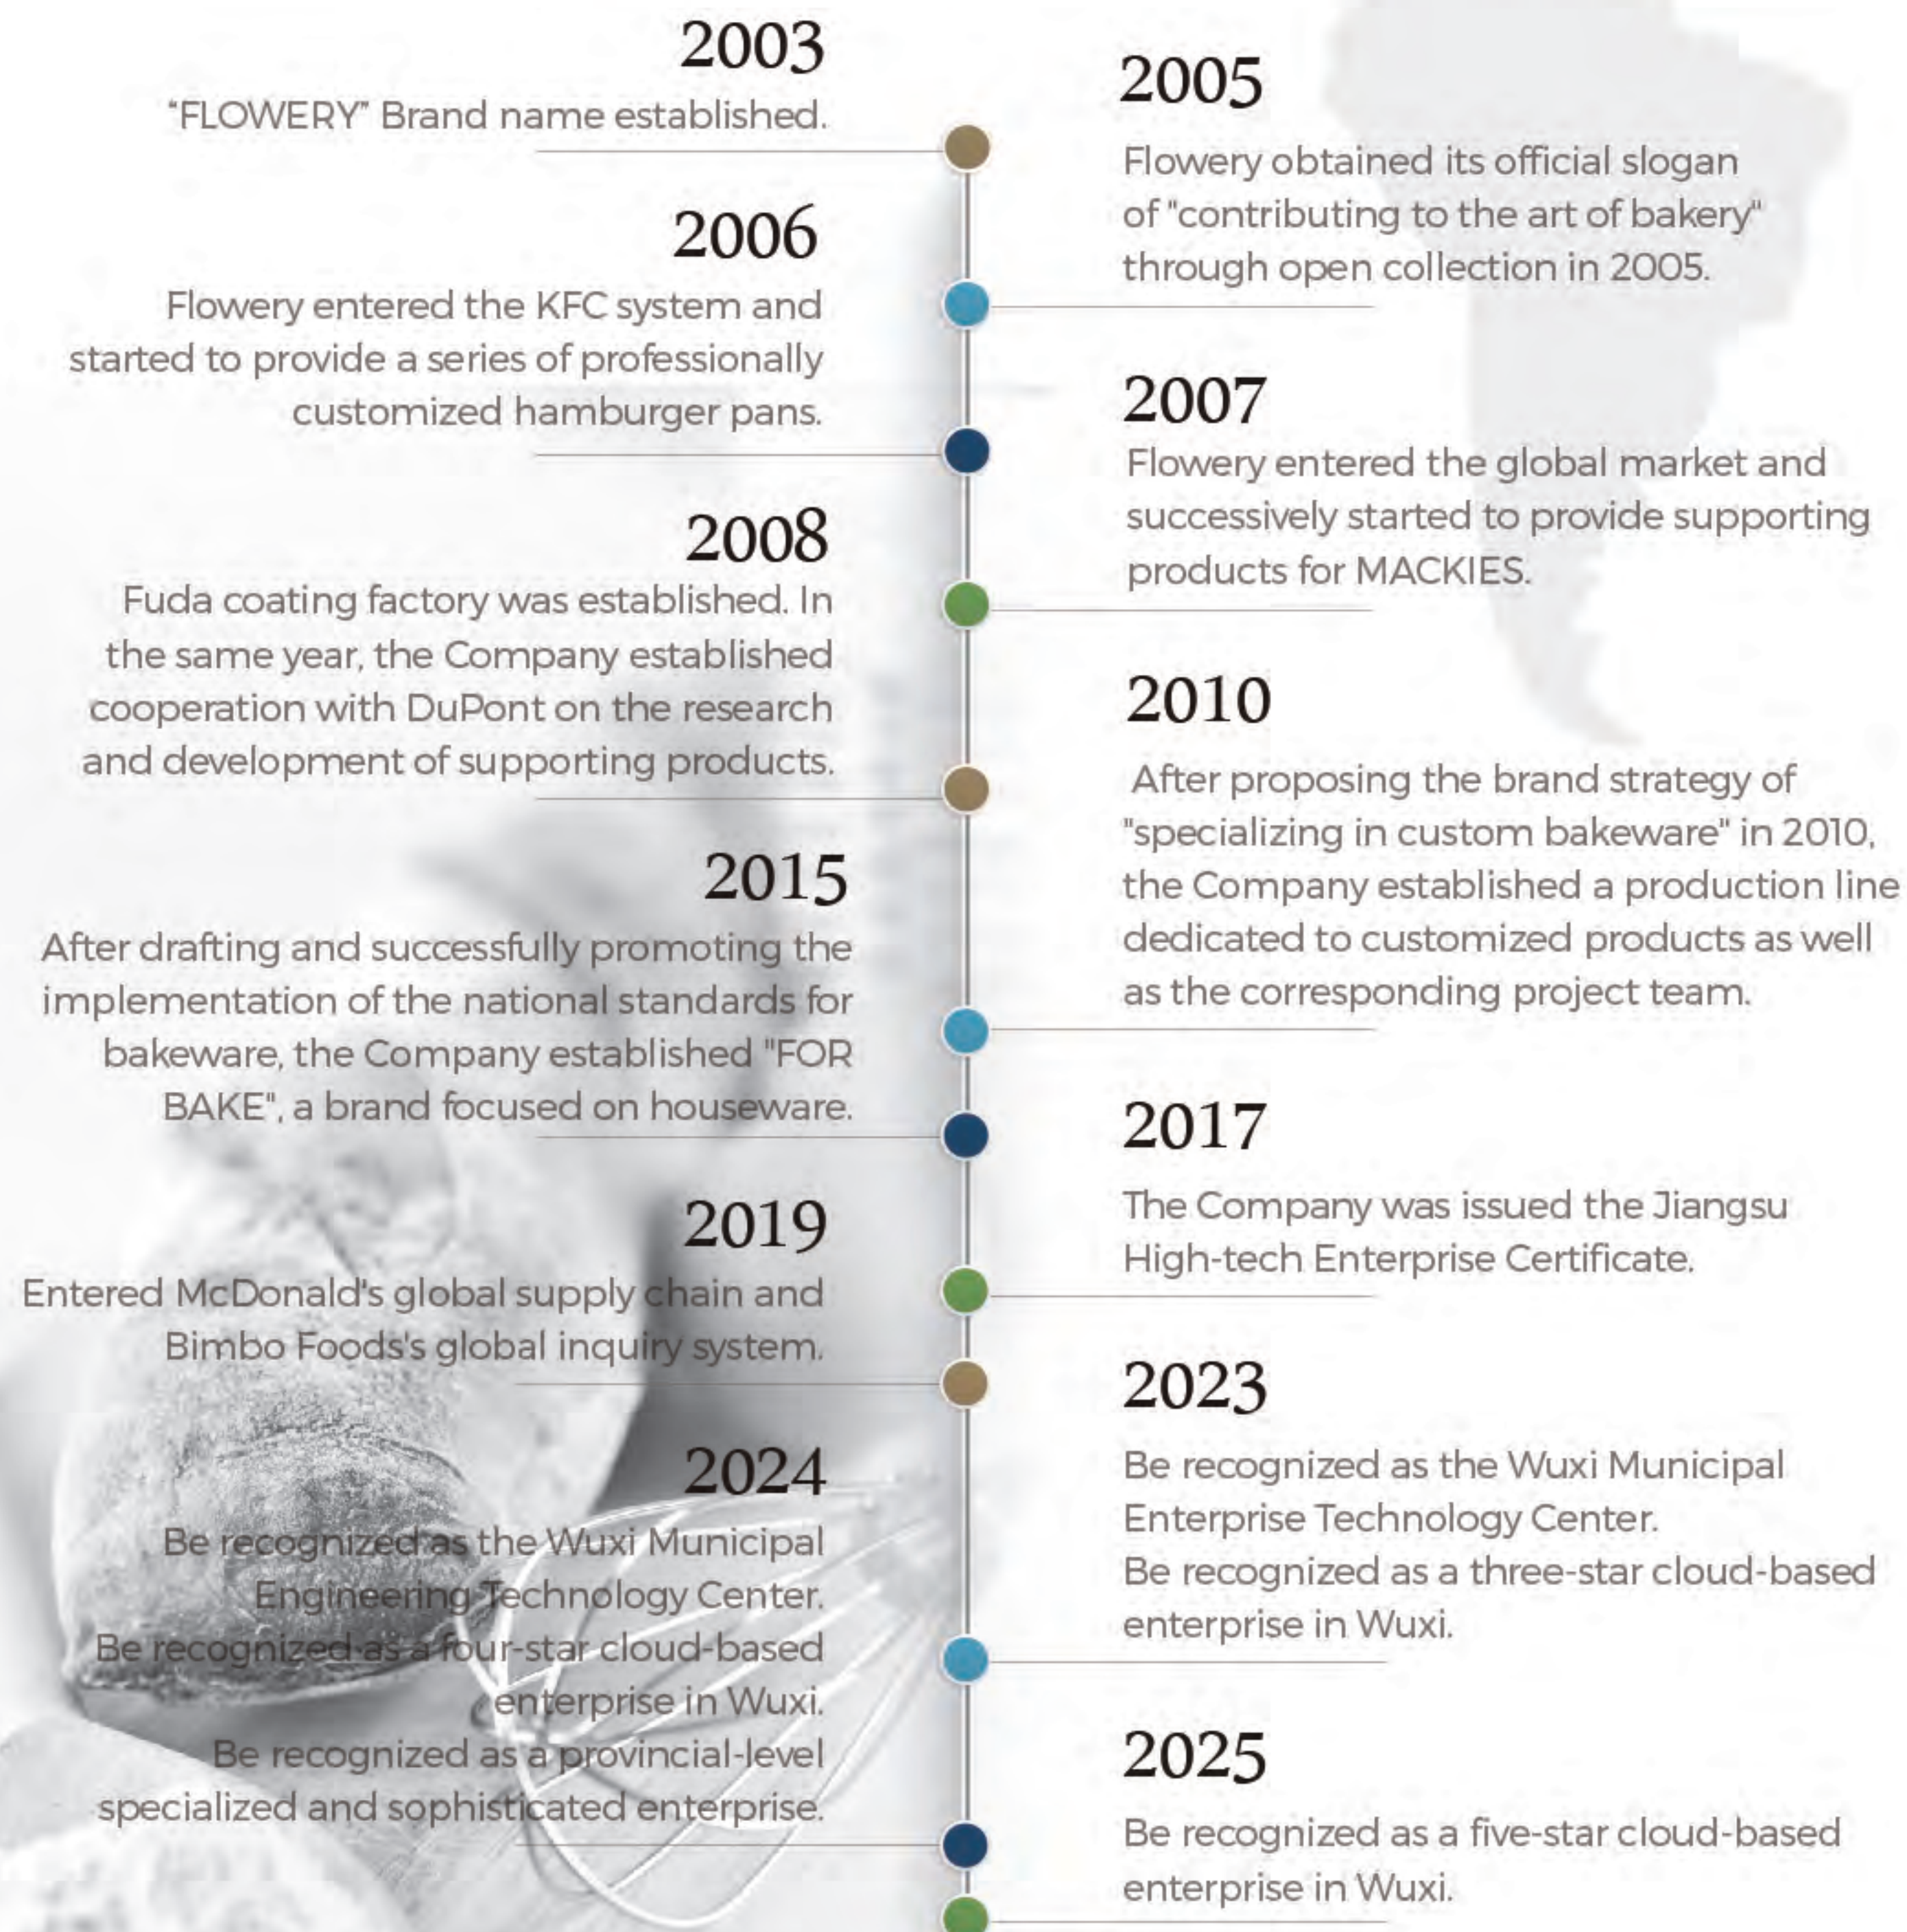

As a well-known brand in the baking industry, "Flowery" was established in 2003 and is committed to "contributing to the art of baking". Products under the Flowery brand include baking trays, hamburger trays, torpedo roll trays bread pans, bread pan lids, baguette trays, muffin trays, cake trays, trolleys/racks, pizza pans, single cake molds, mousse rings, knives, tools, silicone molds, decorative items, ancillary equipment etc., and its quality management system has passed ISO9001. The Company's products are exported to many countries worldwide and regions in Europe, the United States, Americas, Australia, Russia, Northern Asia, SE Asia and the Middle East. The company is committed to provide popular high-quality ISO approved baking utensils and has established the "FOR BAKE" houseware brand to supply the domestic market for home baking. Adhering to the market-oriented operation mode, Flowery will continue to provide and update high-quality products and services that meet the needs of the baking market.

Brand strategy: Specializing in custom bakeware

We Specialize in Custom Industrial Bakeware/ Industrial Baking Pans/Trays and Coatings. We will create custom pans/trays to meet your exact specifications and requirements. Our popular brand name has grown by our attention to corporate development, customer requirements and quality with our exceptional services and products. Looking back at our 22-year history, the company has pursued comprehensive development from three major aspects, 1. Major Clients 2. Distributors and 3. Worldwide Exports. The Company has achieved steady growth year by year from new clients and our growing client base. All Bakeware is supplied at a very competitive global price to meet each individual customer's needs.

Development History

Tips

Teflon, is a fluorine coating based on a polytetrafluoroethylene resin. Due to its combined advantage over other coatings, the flexibility of its application allows it to be used in almost all shapes and sizes of products. Such as rice cooker inner, bakeware, etc. Dupont company was the first to discover that aluminum alloy, alusteel are good materials suitable for non-stick treatment. Flowery Non-stick baking pan is made of Dupont coating material.

Tips

PFA is also called PFA powder coating, with better release performance. PFA coating can provide better protection for the base material. It is widely used in buns and loaf pans. Its non-stick release time is 2-3 times compared with PTFE. Flowery PFA coated trays is all made of DuPont PFA material, the release time is over 3000 times.

Tips

Features:

1. Made of 201 stainless steel, more durable than aluminium trolley. More suitable for factory use.
2. Electrolysis surface treatment, more beautiful
3. Customized specification is accepted.

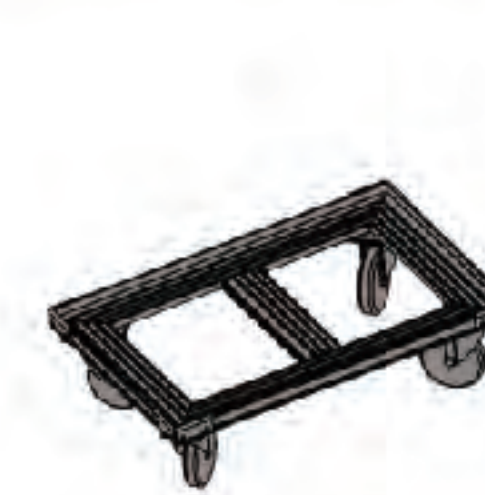

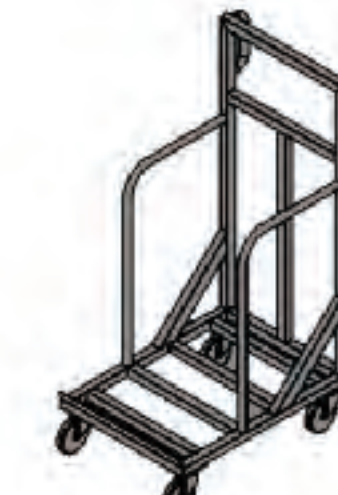

Customized Trolley

A	rack width (inner)
B	width between runners
C	overall rack height
D	rack height (exclusive wheels)
E	distance between runners
F	distance of runners
G	width of runner
H	size of wheels
I	size of pole
J	the height of the rail
K	top wheel width
L	distance between position pillars
M1	position pillar size
N1	position pillar distance to the ground
M2	position pillar size
N2	position pillar distance to the ground
